Objective

IT professional seeking a position that utilizes experience in information technology, technical support, system deployment, and enterprise operations. Skilled in hardware and software troubleshooting, device provisioning, system imaging, endpoint support, and maintaining technology assets in structured IT environments. Experienced in supporting users, documenting processes, monitoring systems, and coordinating technology deployments. Seeking an opportunity to contribute strong technical, organizational, and problem-solving skills while continuing to grow within an IT support, systems administration, business systems, or technology analyst role.

Education

Messiah University, Mechanicsburg, PA

Bachelor of Science in Computer and Information Science | May 2025
Business Information Systems Concentration
NCAA Men's Volleyball Team

Experience

***Lead Bench Technician (promoted from IT Bench Technician*) Global Data Consultants,** Mechanicsburg, PA

January 2025 - Present

- Promoted to Lead Bench Technician where I was given responsibility to train and onboard new technicians on repair, workflow, and documentation processes, establishing standardized procedures that improve consistency, quality, and turnaround time.
- Diagnose and repair laptop hardware and software issues for Lenovo, Dell, and HP systems using Lenovo NGSP, Dell TechDirect and BIOS-level diagnostic tools. Perform component replacement, firmware updates, system validation, and troubleshooting to restore devices to operational status.
- Maintain accurate asset records, repair documentation, and deployment tracking through Finale Inventory Management and SharePoint. Document troubleshooting procedures, repair outcomes, and device lifecycle information to support operational efficiency and inventory accuracy.
- Support physical security and access control projects utilizing Verkada solutions, assisting with device installation, configuration, testing, and troubleshooting to ensure reliable system functionality and secure facility access.
- Executed large-scale technology deployments as the primary installer, delivering and configuring devices while ensuring systems were fully operational and ready for end-user use.

Founder, Hamm Solutions (hammsolutions.com)

Dillsburg, PA

June 2026 - Present

- Established an independent technology services business focused on computer repair, technical support, system optimization, and technology consulting for residential and small business clients.
- Develop and maintain the company's website, online presence, and search engine optimization (SEO) strategy to increase visibility and generate potential client leads.
- Offer technology services including hardware diagnostics, software troubleshooting, operating system installation, device setup, networking support, data migration, and system upgrades.
- Research and evaluate technology solutions to provide clients with recommendations for computers, peripherals, networking equipment, and business technology needs.
- Manage business operations including service planning, customer communications, branding, and digital marketing initiatives.

Web Designer and Electrical Apprentice, Zellectric (zellectric.com)

Dillsburg, PA

January 2026 - Present

- Designed and maintained the company website, implementing search engine optimization (SEO) strategies to improve online visibility and support customer acquisition.
- Assisted with residential electrical projects, supporting installation, troubleshooting, and maintenance activities while adhering to safety standards and established procedures.
- Collaborated with team members to coordinate project requirements, communicate with customers, and support daily business operations.

***Information Technology Intern*, Pennsylvania School Boards Association,**

Mechanicsburg, PA

June 2024 - August 2024

June 2023 - August 2023

- Provided technical support to employees by diagnosing and resolving hardware, software, and connectivity issues, minimizing downtime and ensuring continuity of daily business operations. Assisted users with workstation setup, peripheral devices, account-related issues, and general IT support requests.
- Designed and developed custom models using OpenSCAD and operated 3D printing and laser engraving equipment to support organizational projects, prototypes, and practical business applications. Collaborated with staff to translate project requirements into functional designs and finished products.
- Assisted with monitoring endpoint and network health using enterprise security and management platforms, including CrowdStrike, helping maintain system performance, security compliance, and operational reliability across organizational technology assets.
- Performed system setup, user configuration, hardware installation, and inventory updates to support technology refresh initiatives and improve operational efficiency.

***Event Staff*, Northern York County School District,** Dillsburg, PA
September 2022 - Present

- Assisted with event security operations by monitoring event areas, controlling access points, and helping maintain a safe environment for attendees and staff.
- Provided customer service by assisting attendees with directions, answering questions, and addressing concerns while supporting efficient event operations.
- Coordinated with team members, supervisors, and emergency personnel to respond to incidents, communicate important information, and support established safety procedures.

***Cashier*, Giant Food Stores,** Dillsburg, PA
September 2019 - April 2023

- Provided customer service by assisting customers with purchases, self-checkout transactions, and general store inquiries in a fast-paced retail environment.
- Processed cash, credit, and electronic transactions accurately while maintaining attention to detail and ensuring financial accuracy.
- Supported daily store operations by collaborating with team members, restocking merchandise, and maintaining an organized and efficient checkout area.
